

## Bass Trap - Corner

**Bass Trap**  
PRO AUDIO & STUDIO

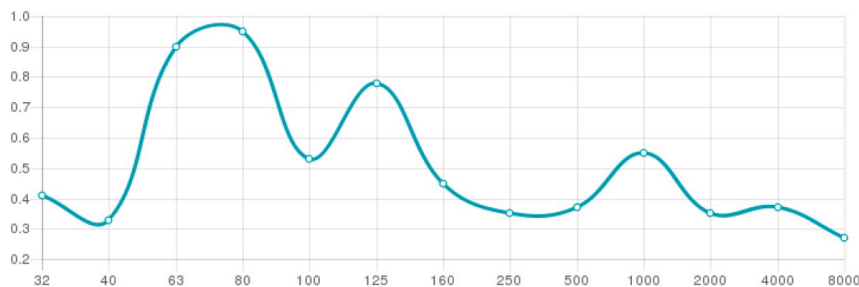

### Description

New fine-tuning possibilities.

The Corner bass trap is the latest in low frequency absorption. This elegant panel integrates a tuneable membrane over a sealed volume, containing a high performance acoustic core. A secondary compartment positions Helmholtz resonators in the high pressure zone of the room. The panel is completely tuneable, by means of an adjustable weighted membrane, allowing to pin-point the performance of the panel to a target frequency.

The panels' tuneable membrane works in a similar way to a speaker cone, allowing for a much superior - and controlled - performance. A central mass is supported by an elastic membrane - This mass can then be altered to change the resonant frequency of the membrane, stepping the peak performance of the Trap from 60 to 86 Hz.

### Performance

### Technical Information

### Specifications

Tuneable weighted diaphragmatic membrane.

**Tuneable absorption range:**  
57Hz to 82Hz.

Hz-by-Hz fine tuning.  
New fine-tuning possibilities.

**Fixing System:**  
Mechanical

**Installation:**  
Integrated Fixing System

**Dimensions:**  
Azteka Bass Trap Corner  
595x595x183mm  
Athos Bass Trap Corner  
595x595x156mm  
Kea Bass Trap Corner  
595x595x156mm  
Ulysses Bass Trap Corner  
595x595x153mm

**1** Select the weight layout to tune the bass trap to your desired frequency range.

**2** Clip the front of the panel in to the bass trap body, leaving easy access to the membrane.

 PRO AUDIO & STUDIO

### Specifications

**Fixing System:**  
 Corner Integrated Fixing System  
 Fixing already incorporated on the panel.

**Mobile & Stand-alone system:**  
 M6 receivers already incorporated on the panel frame.  
 Compatible with **Kit Mobile Wall**.

**Front Panels Clips Options:**  
 Azteka | Athos | Kea | Ulysses |
