Features

Type: Absorber

Absorption Range: 125 Hz to 8000 Hz

Acoustic Class: A | (aw) = 1,0

Available Fire Rate:
FG | Furniture Grade

- Materials:
- Acoustic fabric
 - Marine grade plywood structural frame
 - Calibrated cell acoustic foam

Six M6 Screw Thread receiver included on each panel.

Dimensions:

- FG - SF | 595x595x88mm | 1.2 Kg
- FG - WF | 595x595x88mm | 1.25 Kg

Technical Information

Dawson Absorber was designed to control noise, sound reflections and excessive reverberation, in a decorative manner. Manufactured with premium materials and carefully wrapped with acoustic fabric, this product has an outstanding performance from mid to high frequencies.

Using a patented technique, the rear crenellated surface of the panel was designed to optimise performance by increasing surface area, reduce raw material waste and improve shipping, reducing packaging size and increasing the products resistance. Available in standard market furniture grade fire rate, appropriate for home use applications, compliant with all domestic level fire grades; and Fire Rate + fire resistance, compliant with entry-level fire resistance, certified under specific European and American regulations. Available in 7 standard colours, plus customised colours on demand.
